

Met Galleria is latest addition to KL Metropolis

KUALA LUMPUR: Met Galleria, a two-storey commercial space, will be the latest addition to Naza TTDI Sdn Bhd's KL Metropolis development.

Executive director and chief operating officer Datuk Idzham Mohd Hashim said the RM160 million two-storey upmarket space would be a top choice for retailers.

"Met Galleria aims to cater to the 350,000 existing residents in the (surrounding) area, as well as owners of upcoming residential developments (within KL Metropolis), Malaysia International Trade

and Exhibition Centre visitors and workers from nearby offices," he told reporters after unveiling the Met Galleria to stakeholders yesterday.

To date, 15 per cent of the development has been built and with the remainder to be completed by the first quarter of 2021.

Forty per cent of the spaces in Met Galleria would be dedicated for food and beverage, 20 per cent for retail concept stores and the remaining would be for anchor tenants, services and pop-up stores.

Besides Met Galleria, other

developments in KL Metropolis that are expected to be completed by 2021 include the MET corporate office towers with a gross development value (GDV) of RM650 million, MET 1 Residents and Arte Mont Kiara.

The RM20 billion GDV KL Metropolis development encompassed 30.55 hectares of land and is the main development focus for Naza TTDI.

"We built to cater the existing demands and focus on attracting the existing catchment," he added. — Bernama
