

FROM its humble beginnings as an area of rubber and oil palm estates, Shah Alam has grown and evolved to become a vibrant neighbourhood within a few decades.

Granted city status on Oct 10, 2000, and bordering other mature regions such as Petaling Jaya, Subang Jaya and Klang, Shah Alam has established itself as one of the most sought-after places to live in the Klang Valley.

Naza TTDI Sdn Bhd is capitalising on Shah Alam's strategic location and connectivity by offering TTDI Sentralis, an 8.03-acre integrated development at the heart of Section 13. This development leads the way in the grand masterplan of TTDI Gateway, an up-and-coming township of 33 acres.

TTDI Sentralis offers commercial, retail, office and residential units – all of which form a thriving mixed urban hub that caters to first-time homebuyers, investors and SME owners.

The leasehold development, with a gross development value of over RM468mil, comprises 206 units of Shop Office Versatile Office (Sovo), 260 serviced apartments (SA) and 101 retail units.

A modern and healthy lifestyle awaits residents who will get to enjoy facilities that include a gymnasium, swimming pool, covered parking, mini market and playground. With easy access to recreational and leisure amenities within TTDI Gateway, TTDI Sentralis Lifestyle Suites are set to gain popularity.

Residents and tenants will find it convenient to commute via the Federal

OPTIONS APLENTY AT TTDI SENTRALIS

Naza TTDI crafts lifestyle hub in the heart of Shah Alam

Highway, New Klang Valley Expressway, Guthrie Corridor Expressway and Elite Highway to all major destinations in Greater Kuala Lumpur, including Klang, Kuala Lumpur International Airport, Putrajaya and Cyberjaya.

Those who rely on public transport could utilise the bus and train connections within Shah Alam, with the upcoming LRT3 station located 300m away.
